New Food Safety & Standards Rules – 2011
Food Business Operator - Licensing and Registration System (FLRS) &
Food Import Clearance System (FICS)

License

6th FOOD WORLD INDIA..2012

Raghu Guda
raghu@nisg.org

The Food Safety and Standards Authority of India (FSSAI) has been created for laying down science based standards for articles of food and to regulate their manufacture, storage, distribution, sale and import to ensure availability of safe and wholesome food for human consumption.

DEFINITION OF 'FOOD'

FOOD means any substance, whether processed, partially processed or unprocessed, which is intended for human consumption and includes primary food, genetically modified or engineered food or food containing such ingredients, infant food, <u>packaged drinking water, alcoholic drink,</u> chewing gum, and any substance, including water used into the food during its manufacture, preparation or treatment but does not include any animal feed, live animals unless they are prepared or processed for placing on the market for human consumption, plants prior to harvesting.

Why FSS Act?

- Multiplicity of food laws, standard setting and enforcement agencies for different sectors of food

- Varied Quality/Safety standards restricting innovation in food products

- Thin spread of manpower, poor laboratories infrastructure and other resources non-conducive to effective fixation of standards

- Standards rigid and non-responsive to scientific advancements and modernization

- Poor Information dissemination to consumer level

- Food Safety and Standards Authority of India –
  - The Food Safety and Standards Act, 2006 was passed by Indian Parliament and notified in the gazette of India on 24th August, 2006
  - Authority Established - 2008 to operationalize the FSS Act, 2006
  - Gazette Notified Licensing/Registration - FSS Regulations 5th August, 2011
  - All Food Business Operators in India to get Licensed/Registered with Food Safety Authority

Acts Repealed

Various Acts & orders before FSS Act

- **Edible Oils Packing 1998**
- **Vegetable Oil Products Order1988**
- **Meat Food Products Order 1973**
- **Milk & Milk Product Amendment Regulations-**
- **Food Safety & Standards Act 2006**
- **Solvent Extracted Oil, De-oiled Meal & Edible Flour (Control) Order**
- **Prevention of Food Adulteration Act 1954**
- **Fruit Product order 1955**

- FSSAI – SINGLE POINT OF REFERENCE FOR ALL MATTERS RELATING TO FOOD SAFETY AND STANDARDS IN INDIA

- FSSAI constitutes representation form representative of Food Industry, Food Technologists, Producers, Retailers, Consumers, Farmers, State Governments and concerned ministries

Shifts under FSSA

Several Authorities	Single Authority
Adulteration	Safety
Opinion Based	Science/Evidence Based
Inspection	Surveillance, Monitoring

•Old Era: - Inspection and Prosecution Regime →New Era: - Guidance and Compliance → FOOD SAFETY IS A SHARED RESPONSIBILITY

Magnitude

To effectively regulate and ensure food safety in the country, the following dimensions need to be looked into:

- Ensure more than <u>2 Billion meals per day</u> in the country is safe and wholesome

- Register/Issue Licenses to <u>nearly 35 million FBOs</u> including the small, micro and even temporary vendors in streets.

- Enforce the new safety regulations uniformly across the wide spectrum of registered food vendors through the <u>35 state/UT</u> enforcement structures.

- Inadequate infrastructure - <u>72 public labs and 5 CFLs</u> (plus two extension labs) is not adequate to handle the envisaged increase in number of food samples and the newer types of foods for testing.

- Imports (Food products) have <u>grown 200% in the last year</u> alone (Source: Export import data bank-Ministry of commerce)

- India is a signatory to the WTO - Harmonizing the domestic and international standards without compromising the public health and safety is of paramount concern

- Creating awareness on food safety among the entire population is a herculean task.

Various Committees / Panels constituted

☐ Food Authority have constituted

❖ 8 Scientific Panels

  ➢ Panel for food additives, flavourings, processing aids and materials in contact with food.

  ➢ Panel for biological hazards.

  ➢ Panel for contaminants in the food chain

  ➢ Panel for labelling and claims/ Advertisements

  ➢ Panel for method of sampling and analysis

  ➢ Panel for pesticides and antibiotic residues

  ➢ Panel for genetically modified organisms and foods

  ➢ Panel for functional foods, nutraceuticals, dietetic products and other similar products.

❖ Scientific Committee

❖ Central Advisory Committee

LICENSING AND REGISTRATION OF FOOD BUSINESS

Central Licensing Authority

Designated Officer appointed by the Chief Executive Officer of the FSSAI.

CEO, FSSAI to function in the capacity of Commissioner

State Licensing Authority

Designated Officers appointed under Section 36(1) of the Act by the Food Safety Commissioner of a State or UT for the purpose of licensing and monitoring.

Registering Authority

Food Safety Officer or any official in Panchayat, Municipal Corporation or any other local body in an area, notified as such by the State Food Safety Commissioner for the purpose of registration

Layered implementation-Govt.of India-State Govt.- Municipalities-Panchayats

- ## Consumer:
    - No Food Business Operator shall sell, offer for sale, distribute and manufacture any article of food which is unsafe or sub-standard
    - Empowered to get any food articles analysed
    - Protected from misleading, deceiving and unfair practices on articles of food or in advertisement used in this regard
    - Compensation in case of illness, injury or death arising out of consumption of unsafe food

- ## Industry:
    - Shift from multi-level, multi-department, multi-standard control to FSSAI
    - Graded penalty depending on gravity of offence
    - Food Safety Officers liable for penalty for misuse of power
    - Participation in framing of regulatory framework to enable investor friendly and regulated growth of Food Industry

Food Safety and Standards Authority of India
भारतीय खाद्य संरक्षा एवं मानक प्राधिकरण
fssai

Role of Trade Bodies

- Representation of trade bodies in Food Authority for any policy related inputs
- Help Authority in promoting awareness on the new Act and its Licensing/Registration rules
- Facilitate formation of stakeholder's forum at regional levels to channelize *"voice of stakeholders"*
- Consolidate feedback from industry and represent to Authority for addressing the concerns
- Position Indian Food Industry at par with Global Players

What Can YOU Do?

Food Safety and Standards Authority of India
भारतीय खाद्य संरक्षा एवं मानक प्राधिकरण
fssai

WE are the Key

- Evolved Food Standards leading to increased confidence of the consumer
- Embrace Safety and Standards as the de-facto principle governing every level (Farm → Fork)
- Networked Sector to consolidate and maximize gains of new Act
- Benchmarks for Global visibility of domestic industry
- Compliance enabled through standard setting and enforcement of quality in supply chain
- Reposition business to proactively build compliance

License

Architecting e-Government

How Do We Do?

- **License/Register:**

  - Section 2. 1- Registration and Licensing of Food Business - All Food Business Operators in the country will be registered or licensed in accordance with the procedures laid down in FSS Regulations, 2011

    - You get License/Registration

    - Ensure procurement from Licensed/Registered sources

- **Food Safety Management:**

  - Develop a Food Safety Plan

  - Ensure conformity

  - Build benchmarks for excellence

- **Social Responsibility:**

  - Help Authority track errant FBO and get a rewarded through Whistle Blower Scheme

  - Comply with Authority

    - Timely submission of returns

    - Renewals

    - New Product approvals

    - Cooperate with Officers

Central & State License/Registration Eligibility Criteria

S.No	Food Processing Units	CENTRAL LICENSING [Schedule I, Regulation 2.1.2(3)]	STATE LICENSING	REGISTRATION [Regulation 1.2.1(4b)]
I	Dairy units including milk chilling units equipped to handle or process	More than 50,000 liters of liquid milk/day or 2500 MT of milk solid per annum	More than 500 ltrs milk upto 50,000 ltrs	Less than 500 liters
II	Vegetable oil processing units and units producing vegetable oil by the process of solvent extraction and refineries including oil expeller unit	More than 2 MT per day.	Up to 2 MT per day and turnover above 12 lakh	Less than 12 lakh
III	Slaughtering units	Large animals : more than 50 large Small animals including sheep & goats:150 or more Poultry birds :1000 or more/ day	Large animals : more than 2 upto 50 Small animals : more than 10 upto 150 Poultry birds : more than 50 upto 1000	Large animals : less than 2 Small animals: less than 10 Poultry birds :less than 50 per day

No. P. 15025/24/2012-PA/FSSAI	22nd March, 2012
Continuation to the advisories of P... Approval	...ill be issued for 1 year in case of ...se holders/ importers for proprietary food ...cts/ ingredients and also for new products/ ingredients which have had a proven record for safety for human consumption in other countries. Products/ Ingredients which are absolutely new and have never been issued in any country and their safety assessment has not been carried out shall not be issued a provisional NOC. Their applications will be forwarded to the Scientific Panel/ Scientific Committee.	P.15025/219/11-PA/FSSAI	23rd April, 2012

A New Approach – Novel Food Ingredient Authorization instead of Product Approval being contemplated by Authority to facilitate and foster growth in Food Industry

Current Approach

- Individual Product Approval
- Each application received and reviewed by Product Approval Screening Committee on a weekly basis and applications forwarded to Scientific Committee for approval
- Few notifications issued by Authority for simplifying the Approval Process creating further confusion to the FBOs
- Flat fee of Rs. 25,000/ for approval of each product
- No specific timelines being enforced to any stakeholders in the process creating a lot of uproar in Industry
- Entire process is manual
- Relaxation of the conditions for prior NOC to existing License holders and for Importers with antecedents
- The current system envisions that Importer applies for NOC and continues to operate normal

Proposed Risk Based Framework

- PRODUCT APPROVALS ? – World over there is a shift from Approvals to Authorizations
- Risk is the backbone for removing the ambiguity associate with decision process and to bring all applications on a common platform

What are the ingredients &Additives

Segregate in Low - Medium - High Risk	
BOTANICALS	Sweeteners & Combinations
AMINO ACIDS	Soy Isolate /Whey Proteins
Unauthorized Additives	Commodity ingredients

Onus on FBO to provide Safety evidence

CRITERIA FOR ASSESSING RISK – Examples

Inherent Risk	Control Risk
SUBSTANCE RELATED	FBO RELATED
Substance Not Characterized	Pesticide Residue
Not verifiable by Testing	Contaminants
Vulnerable Populations	Toxins/Pathogens
Consumption (Servings/day)	GMP
Storage Conditions (if any)	FSMS
Allergens	

Each criteria is assigned a weighted Risk score

PRIORITIZATION OF RISK FOR : Safety Assessment

- ❑ Demystifying Food Product Approval
    - ❑ FBO to submit an application for New/Novelty Ingredient Authorization
    - ❑ Identify the Novel Food Ingredients
    - ❑ Identify Additives
    - ❑ Scrub the Ingredients, Additives and their limits against FSSAI and Other International Standards
    - ❑ Evaluate the Risk for "New Ingredient or New Additives" based on evidence furnished by FBO
    - ❑ Pre Processing Committee, Scientific Panel and Scientific Committee to evaluate the application, risk and evidence of safety to prescribe the limits of Ingredient Authorization
- ❑ Once Authorized by FSSAI, the Ingredient in the prescribed limit for the prescribed food categories can be used in any combination without the need of any separate approval/authorization
- ❑ FSSAI to develop an online tool for all FBOs to check the permissibility of the Ingredients and Additives for any Food Product Combination
- ❑ FSSAI to develop and deploy an online tool for "Ingredient Authorization Applications" for FBOs

License/ Registration

Ways to apply for License/Registration

- ## Web based application
  - FBO to submit application online
  - DO/FSO to process application online
  - Inspection report entered online
  - Additional documentation (if required by FBO) submitted online
  - Issue License/Registration Certificates online

- ## *Manual application*
  - *FBO could optionally submit manual application*
  - *concerned Authority to enter the application online*

**Online Application**: http://foodlicensing.fssai.gov.in
Support: Ph:1800-112100
e-Mail: licensing@fssai.gov.in

Salient Features of Food License/Registration System

- ✓ Centralized, load balanced, scalable and robust system hosted at NIC Data Centre, Delhi.
- ✓ Secure System, Certified by CERT-IN Auditors
- ✓ APPIN Security Group has cleared third party audit
- ✓ No need for each state to separately develop, host and manage system
- ✓ Data Confidentiality of each State's data maintained
- ✓ System can be accessed from each state's own Food Safety Commissioner's website
- ✓ User name password driven roles, rights, responsibilities, privileges and workflows.
- ✓ FBOs can pay online and funds transferred to corresponding states.
- ✓ SMS/Email alerts along with notifications through self-care portals
- ✓ License / Registration Certificate generated and printed from the system
- ✓ Dashboard reporting interface based on user credentials
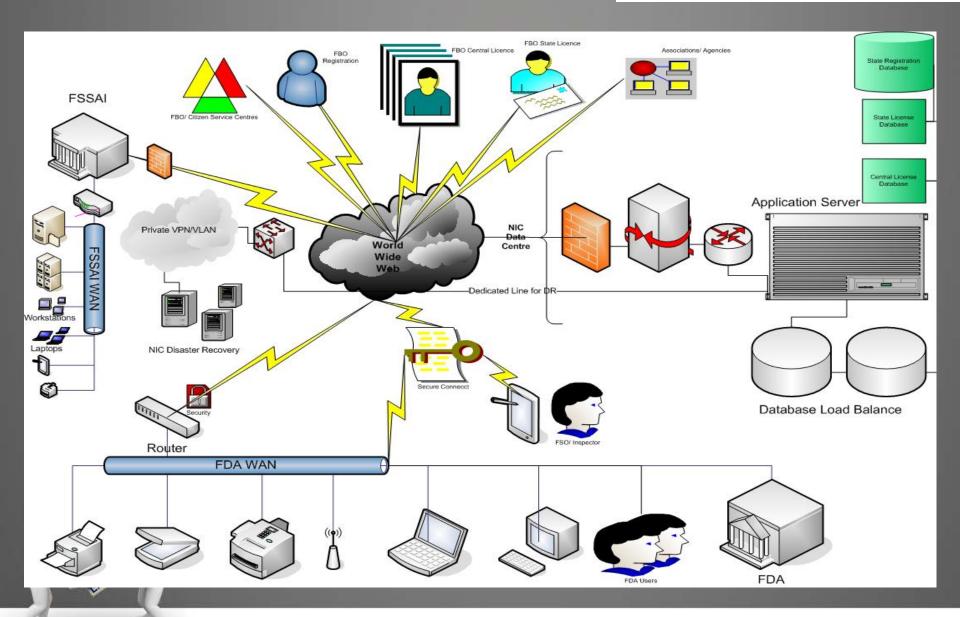

Licensing/Registration System – Facilities for FBO

- FBO to check eligibility and apply online for Registration/Licensing

- FBO can register themselves online for Username/Password to access the self-care portal for FBO's

- Renew existing licenses

- Track the status of the application through an Application Reference Number

- Receive SMS alerts and e-mail updates on the application/inspection status

- FBO can pay Licensing fee online

- The Online system facilitates the following:

  - Capture new License Detail

  - Capture all supporting documents in digital form

  - Convert existing licenses

  - View status of existing licenses

  - Initiate Inspection appointments and view inspection reports

  - Renew the validity of an existing license

  - Generate certificate to be issued to Food Business Operator.

Kolkata - Seaport & Airport
Mumbai - Seaport & Airport
Mumbai – JNPT Seaport
New Delhi ICD & Airport
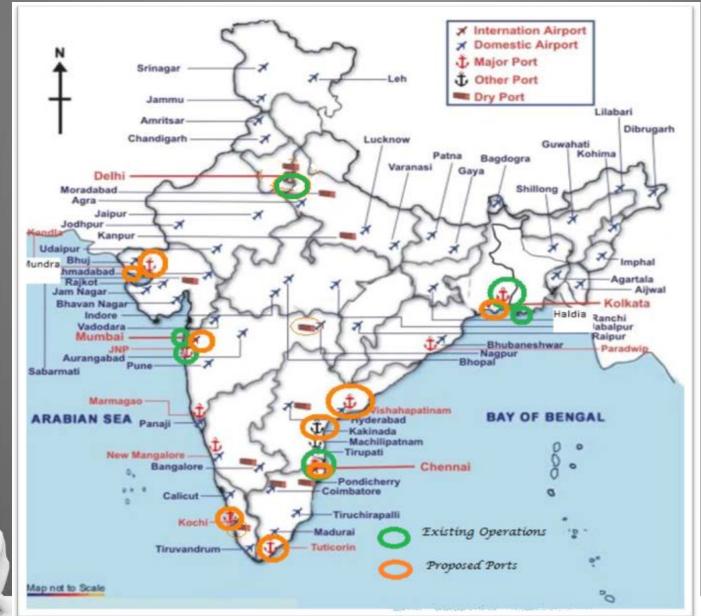

National Institute For Smart Government (NISG) has been engaged by FSSAI to Operationalize Food Import Clearance

Locations

Overview of The Processes
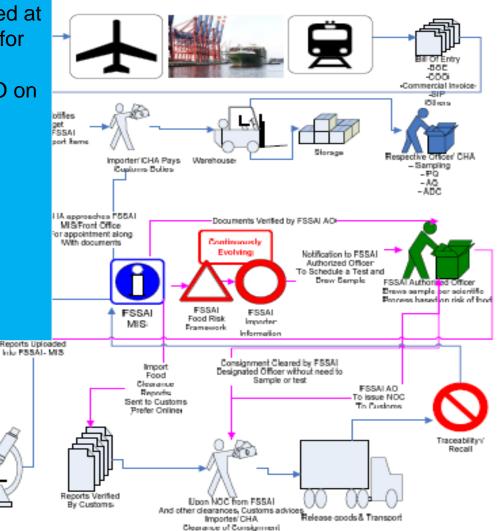

- FSSAI Authorized Officer to be located at each port of entry and be the contact for all Imported Food.
- Customs communicates to FSSAI AO on all food imports
- FSSAI AO functions include:
  - Physical Inspection
  - Sampling
    - Risk Profile of Food
    - Importer Information
  - Lab Testing and analysis
  - No Objection for Clearance
- Customs Clears the Consignment

Food Import Clearance Process

Food Safety and Standards Authority of India
भारतीय खाद्य संरक्षा एवं मानक प्राधिकरण

fssai

|	
Document Submission & Appointment	• CHAs seeks appointment for sampling from FSSAI-AO after the examination orders are generated by customs by the bill of entry and by furnishing required documents along with fee for testing
Inspection & Sampling	• Per the appointment schedule, AO visually inspects, verifies documents and label and draws the sample randomly from the consignment at the CFS or the Vessel
Samples handed over to Labs	• The collected samples are sealed, coded and sent to the approved labs on the same or next day morning for analysis
Test Reports from Labs	• Depending on the tests required as per FSS, lab analyzes the samples and furnishes the report in 2-8 days
NOC for Clearance	• NOC/Non Conformance based on analysis report from lab is issued by the AO to CHA and customs same or next day

Import NOC

FOOD IMPORT - Types

Product Type/ Category

Pulses	Food ingredients
Fresh Fruits	Dairy
Dry Fruits	Frozen Food
Confectionary	Canned Food
Miscellaneous	Fish/Meat
Alcohol	Bakery
Spices	Fresh Vegetable
Beverages	Noodles
Condiments	Baby Food
Dietary Supplement	Preserves
Snack Foods	Food Colour
Oil	Additives
Chocolate	Sugar

Importers Type/ Category

- Bulk
- Retail
- NGOs
- Government
- Diplomats/ Embassies
- Hotels
- Individuals
- National Agencies (like NDDB)

Summary of Food Imports handled by FSSAI

Item	YEAR I Till March'11	YEAR II April'11- March'12	April'12- July'12	August'12	Cumulative	Average/ Month

*As of 31st August 2012
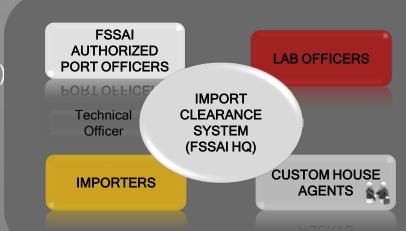

Web based Food Import Clearance System

- It facilitates CHA's / Importers to:
  - To Register online
  - Apply for NOC without visiting any FSSAI Office and make payments for testing
  - Track status of their application
- It facilitates FSSAI Authorized Officers / Inspectors to:
  - Process applications for NOC
  - Ensure timely sampling and inspection
  - Generate No Objection Certificate (NOC)
- It facilitates Labs to:
  - Update test results in the system
  - Invoice FSSAI for payment
  - Communicate with other labs

- It facilitates FSSAI HQ to:
  - To monitor the overall operations of the ports
  - Analyze the risk associated with importing countries
  - Generate MIS reports

Effective 15th March, 2012, only online applications will be accepted at all ports FSSAI is operating

No of Samples Failed for Radiation till date	0	0	0	0	0	0	0	0	0	0

EUROPEAN UNION FRESH FRUITS AND VEGETABLES IMPORTS UPDATE

After the Outbreak of E-Coli spread in last week of May 2011, FSSAI has issued notification on 3rd June, 2011 to monitor the fresh fruits and vegetable imports from Europe and has mandated E-Coli testing before issuing No Objection Certificate.

No Failure Till date across locations in E-Coli in fresh food articles from Europe.

Consultations were held on 22nd June, 2012 with the concerned Departments / Ministries of the Government of India to review the ban on import of dairy products from China. Based on these consultations the following advisory No. 9/FSSAI/2011 is issued:

1. Ban on import of milk and milk products including chocolates and chocolate products and candies/ confectionary / food preparations with milk and milk solids as an ingredient from China may be extended for a period of one year from 24th June, 2012 unless there are dependable reports available about a significant improvement in the situation.

Development of Food Imports Prioritization System (FIPS)- Executive Approach

- **Stage 1 – Proof of Concept, add on to FICS**
  - Obtain Bill of Entries submitted by CHA / Importers in FICS system as per Custom's examination orders
  - Apply Inspection Prioritization on the BoE received from FICS
- **Stage 2 – Integration With Customs EDI**
  - EDI integration of BoE details from Customs System into FIPS related to HS chapters of Food Articles
  - As a gatekeeper FSSAI to apply Risk Assessment on all the BoE's relating to Food and revert to Customs' on FSSAI's risk assessment of the consignment
- **Stage 3 – Pre-Shipment Notice**
  - Overseas Exporters shall enter details of their likely consignments to India as a Pre-shipment Notice, also indicating the FS code of the Food Article and whether their Food Article is Proprietary in nature.
  - This shall advice overseas exporters on the likely Port of Dispatch, requirements of compliance on standards, existence of standards in India, availability of storage, etc.
